

## SECURITY GRILLES

Retractable Security Grilles

Our security grilles have been developed to meet the requirements of a wide range of users – from low risk domestic and small commercial applications through to the protection of high value equipment, products, documents and data.

Our comprehensive range, along with a variety of options and the bespoke design service, means that solutions can be successfully developed for almost any physical security issues.

- *Hardened Steel elements for extra protection against attack*
- *Multipoint locking fitted as standard.*
- *Tested to British Government Specifications*
- *Available in a variety of colours*

Grilles approved by the official  
police security initiative -

**Secured By Design**

**The expertise of our design team enables solutions to be developed that match individual customer requirements. Innovations, such as area and server protection were developed to meet customer needs.**

This knowledge is available to all customers, enabling installations to be tailored to meet precise requirements.

Our engineers are fully trained and have the relevant experience required to complete professional installations. Site surveys and specification service available.
